

Haruo Iwasaki

A New Classification of the Kaprekar Numbers,
Fibonacci Quart. **62** (2024), no. 4, 275–281.

Abstract

Five sets of Kaprekar numbers are exhibited. A nonzero n -digit number is shown to be a Kaprekar number if and only if it is a member of one of the given sets. Our result gives a new classification of the Kaprekar numbers.
