*A direct proof that  $F_n$  divides  $F_{mn}$  extended to divisibility properties of related numbers,*

Fibonacci Quart. **54** (2016), no. 2, 160–165.

**Abstract**

A direct proof that  $F_n$  divides  $F_{mn}$  uses the quotient of the division to derive divisibility properties for Fibonacci, Lucas, Pell, and Pell-Lucas numbers.
