

Fibonacci Conference

The 21st International Conference on Fibonacci Numbers and Their Applications

July 8–12, 2024

Harvey Mudd College, Claremont, California, USA

ORGANIZERS

Arthur T. Benjamin (Harvey Mudd College: benjamin@hmc.edu)
Thomas Martinez (UCLA: thomasmart@ucla.edu)
John Lentfer (University of California, Berkeley: jlentfer@berkeley.edu)
Steven J. Miller (Williams College: sjm1@williams.edu)
Anitha Srinivasan (ICADE, Madrid: rsrinivasan.anitha@gmail.com)
Elif Tan (Ankara University: etan@ankara.edu.tr)

CONFERENCE INFORMATION

The purpose of the conference is to bring together people from all branches of mathematics and science with interests in recurrence sequences, their applications and generalizations, and other special number sequences. For the conference proceedings, manuscripts that include new, unpublished results (or new proofs of known theorems) will be considered, and can be submitted *before* the conference. Many social events are also planned, including a trip to the world-famous Magic Castle in Hollywood. Information regarding registration, accommodations, transportation, submission of manuscripts, and the conference program can be found on the conference homepage

<https://21stinternationalfibonacciconference.wordpress.com/>

To submit a paper to the conference proceedings, to be added to an email list for updates, or for any questions, please email

fibconf@gmail.com or sjm1@williams.edu

Because the conference is fast approaching, if you are interested in possibly attending, please reach out to the organizers earlier rather than later, so we have good estimates on the number of hotel rooms and speaker slots needed.
